Mountain Paradise Resort | Description

A central parking area has been designed in order to maintain visual and sonic contamination to a minimum. There are golf carts available to take you from the main areas to the rooms if desired. Special parking is also available for tour buses. The hotel consists in three categories: Master suite, Junior suite, Premium, a restaurant with capacity for 80 people, adult and children's swimming pool, jacuzzi and wet bar.

All the rooms are equipped with "My Home Intelligent

Systems", a king size bed, fine wood furniture, flat screen televisions with cable, wireless internet, international access telephones and a Jacuzzi. The two-bedroom Suites have a total construction of 140 sq meters (1506.94 sq feet). Besides the standard features in all the rooms, the suite has a private garden swimming pool with view of the volcano, a sitting area, 2 bathrooms – master bath has Jacuzzi. Each Junior Suite is 70 sq meters (753.43 sq feet), an outdoor Jacuzzi facing the volcano, private garden and rock embedded shower.

Some of the personalized services offered by Montaña del Paraiso includes breakfast served in your room upon request and free scheduled transportation to La Fortuna and the nearby hot springs. The restaurant is 690 sq meters (7427 sq feet) and has been designed in a way that you will have an uninterrupted view of the volcano from anywhere in the building. With high arches and ceilings and no doors, you will be able to enjoy first class meals in a totally natural atmosphere

TABACON HOT SPRINGS

The perfect combination of volume, temperature and mineral content (low sulfur content to prevent strong odors) that is present in **Tabacon Grand Spa Thermal** is unique in Costa Rica and worldwide. **Hot springs** are considered a natural expression of Earth's inherent energy. Geologically, Tabacon Resort's thermal natural springs are 97% rain-based and 3% magma-based. Rainwater enters the earth through fissures on the surface and is then heated by magma found in the earth's core. Once heated, the waters rise to surface, taking with them minerals found in the earth's rocky stratus.

There are three thermal springs that naturally surface and flow in the property at 50 degrees Celsius (122 degrees Fahrenheit). Total volume generated by the three springs is 80 liters per second (approximately 20 gallons / second). In total, there are five different springs that exist throughout the property, with temperatures ranging from 25 degrees Celsius (77 degrees Fahrenheit) to 50 degrees Celsius (122 degrees Fahrenheit). There are two main branches to the thermal river that flow through the gardens, and one cold river spring that flows down from the rainforest in the back area of the **Temazcal**. **Tabacon** was the first **Hot Springs resort** open to the public in the Arenal Volcano Region, and is still the top rated, most acclaimed and publicized luxury Hot Springs and Spa resort in Costa Rica.

Tabacon Package Includes: Entrance – Lunch – Dinner – Towels and Lockers.

Important Note:

1. The Tour Guide has to be in charge of taking care of the towels.
2. Tabacon opens its doors at 10:00 a.m. and close at 10:00 p.m.

Day 2: Thursday, March 17th, 2011 / (Road Trip & Beach Day and Lunch in Playa Hermosa)
